Beacon Hill Park. (See pages 4 and 13.)

Gorge Park. (See pages 6, 7 and 11.)

Beach Drive.

Oak Bay.

Esquimalt Harbor and Dry Dock.
(See page 8.)

Any of the above can be reached in a short time on the
B. C. Electric Company's cars, which leave the center
of the city every few minutes.

A motor drive to Goldstream, Metchosin or Sidney (beauty
spots within a few miles of Victoria) will take the
Tourists through most delightful scenery.

Tourists are also much interested in the assortment of goods
from England and the Continent which are found in
the stores of Victoria, but which on account of the
high American duty are not carried by the merchants
of the United States.

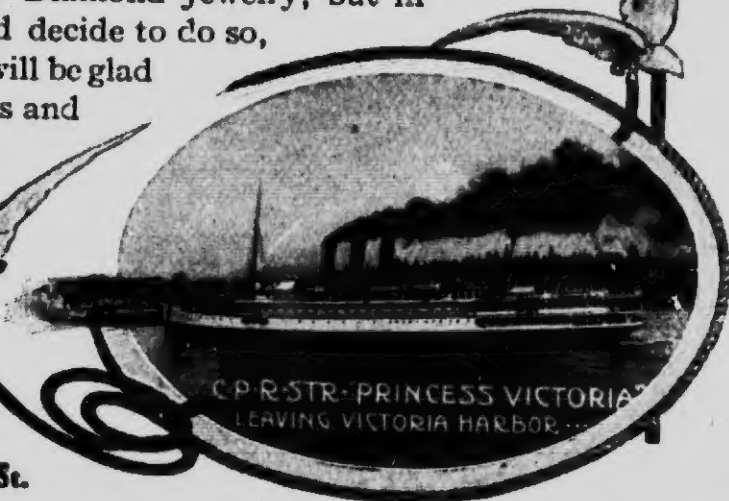

Victoria's Attractions to Tourists consists not only in her beauty and climate, but also because some goods are sold cheaper here than in American cities.

Chief among these are *DIAMONDS* which enter Canada *absolutely free of Duty*. **CHALLONER & MITCHELL** are the largest British Columbia diamond dealers and importers. Their business has grown to its present proportions because they have sold fine quality Diamonds at the *lowest possible prices*. Being the *only* Western Canada Diamond House buying direct from the Amsterdam cutters, sending our buyer to Europe annually to personally select our Diamonds and other Precious Stones, buying in large quantities and paying "*spot cash*" we thus secure prices which enable us to make a fair profit and still undersell all others. *It will pay you to investigate*. You will be very welcome in our store either as a purchaser or as a visitor.

If you do not contemplate the immediate purchase of any Diamond Jewelry, but in the future should decide to do so, write us and we will be glad to submit designs and quote prices.

**VICTORIA
THE
BEAUTIFUL**

XXXXXXXXXX

Victoria City, situated at the southern extremity of Vancouver Island, is known the world over as one of the most beautiful spots imaginable.

As an ideal residential city there is probably no finer place in existence. To those familiar with the magnificent climate of the South of England the term frequently applied to Victoria "A bit of Old England on the shores of the Pacific" will convey some idea of the climatic conditions. The winters are very mild and the summers so temperate that one never suffers from either cold or heat. Outdoor sports are carried on throughout the entire year. Splendid fishing and shooting can be had in all the immediate surrounding districts.

For beauty, the scenery along the drives and automobile routes of the surrounding country is unsurpassed.

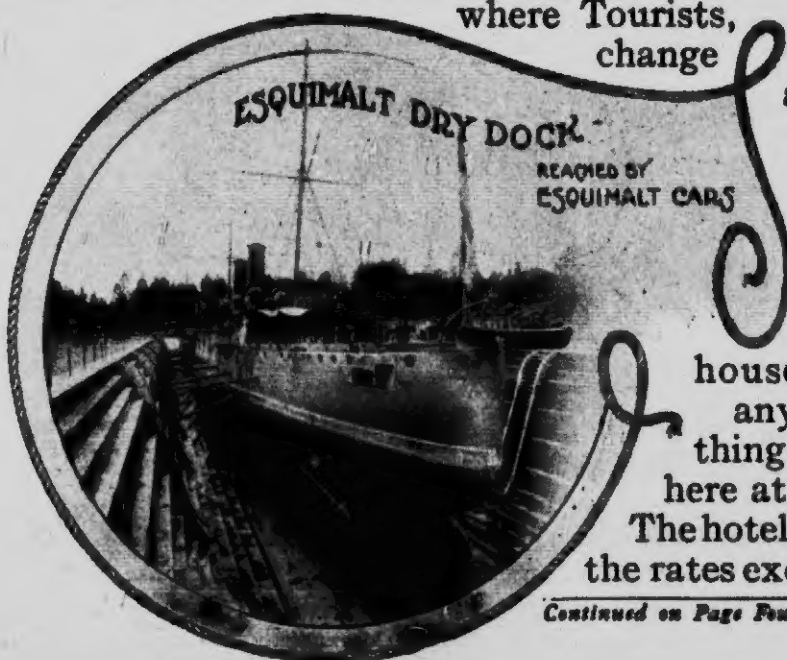

But while Victoria, priding herself upon her flowers, lawns and shrubbery, where roses bloom in the gardens throughout the entire year, is preeminently a city of homes and a place

where Tourists,
